

PRESS RELEASE: PARIS June 7, 2010: The Directorate-General of Research at The European Commission recognizes BMSystems' scientific excellence and innovative business model through two invitations to contribute its expertise to key decisional meetings.

- Dr. François Iris, CSO, is invited to contribute his expertise to the scientific meeting "From Systems Biology to Systems Medicine" *that will bring together 30-35 European experts in a wide range of relevant disciplines to promote the successful translation of systems biology to systems medicine* (June 14-15, 2010, Brussels). In addition, our successful research program on neurodegenerative disorders* *is one of the 3 European "success stories of systems biology with direct benefit to medicine"* selected for formal presentation during the session "State-of-the-Art of Systems Biology applications in Medicine".
- Mr. Manuel Gea, CEO, was invited to formally present BMSystems' highly innovative and remarkably effective business model that *generates, develops and transforms disruptive innovations into competitive business advantages* at the "Innovation in Healthcare: From Research to Market. SMEs in focus" conference organized by the European Commission (May 20-21, 2010, Brussels). [To download the presentation.](#)

For sustainable business, time to market is a critical issue. Bio-Modeling Systems, a world leading R&D booster for life sciences discoveries, can surely help you save considerable time and resources immediately.

Very sincerely,

Manuel Gea,
Co-founder & CEO
