

**Bio-Modeling Systems is selected to pitch at the “Translational Neurosciences Conference” organized by “NeurATRIS” and supported by “eatris” the European Infrastructure For Translational Medicine, comprising more than 80 leading European Institutes.**

PRESS RELEASE: Paris-November 16, 2017: BMSystems is selected to pitch at the “Translational Neurosciences conference” on November 20, 2017, organized by **NeurATRIS**, the French Research Infrastructure conceived to accelerate the translation of discoveries in basic research into medical innovations for the treatment of nervous system diseases, and supported by **eatris**.

This event will be the opportunity for Bio-Modeling Systems, **the world’s first Mechanisms-Based medicine company** to present its CADI\*™ Discovery platform that already led to **14 successes independently validated** of which **a world's first in neurodegenerative diseases, 1 therapeutic spin-off, 1 exclusive out-license in CNS, 4 issued patents and 10 publications** and **10 CNS / PNS programs** at various stages open for collaborative or contractual research:

1. *Creutzfeldt-Jakob disease's mechanisms.*
2. *Cellular & metabolic mechanisms associated with chronic anxiety.*
3. *Psychiatric Disorders therapeutic strategy.*
4. *Alzheimer's Disease Causal Mechanisms.*
5. *Parkinson's Disease Therapy.*
6. *Psychiatric inflammatory mechanisms.*
7. *Fibromyalgia, facial pain.*
8. *Pain (Central/Peripheral).*
9. *Migraine Mechanisms.*
10. *Multiple Sclerosis Mechanisms.*

CADI™ Discovery’s **Integrated Descriptions of Biological Systems** is a valuable tool to generate novel hypotheses and/or challenge existing programs, key opinion leaders and experts’ recommendations spread all over the client’s or partner’s structures.

Bio-Modeling Systems, created in 2004, profitable since 2006, thanks to our recurrent clients proposes to R&D & Translational Medicine Executives, robust alternative decision-making to de-risk, save time, costs, and novel cost-effective diagnostics/therapies for their businesses.

1. *GO-NO GO decision before product acquisition.*
2. *GO-NO GO decision before next phase.*
3. *R&D program Rescue.*
4. *External R&D “B plan” program*
5. *Exploratory program to discover novel causal mechanisms.*
6. *Novel Hypotheses for therapeutic and/or diagnostic solutions discovery.*

We warmly invite you to download our [Management summary](#), our [Short corporate Presentation](#) or our [CADI™ Discovery Concept and POCs Presentation](#).

Do not hesitate to contact us for more information or any business request.

Best regards,

Manuel GEA  
CEO Bio-Modeling Systems

\*CADI: Computer Assisted Deductive Integration

## About Bio-Modeling Systems

Created in 2004, profitable since 2006, thanks to our recurrent clients, is the world's first Mechanisms-Based medicine company that changed the discovery paradigm to create novel medical meanings from unreliable heterogeneous sources of data to generate validated & directly exploitable first in class heuristic non-mathematical mechanistic CADI™ models. Bio-Modeling Systems is a 100% biology-driven company, focused on discovery and critical high impact decisions-making for the following Markets: Pharma, Cosmetics, Nutrition, Health Technologies and Connected health. BM Systems has a dual- Contractual or Collaborative- business model for running R&D programs. [For all details and presentations, visit our website.](#)
